## CATHOLIC CHURCH FAIR TO BE REPEATED THIS SUNDAY EVENING, 30TH.

**Inclement Weather Of Last Sunday Kept Many Patrons  
Away—Various Attractions Interested Many—Ladies  
And Gentlemen in Charge.**

The Mid-Summer Fair for the benefit of the Church of Our Lady of the Gulf, which opened on the lawn of St. Stanislaus College Saturday last, will be continued Sunday evening and night of this week. On Saturday last the lawn was crowded and a great time was had by all who attended. For the youngsters there were penny games, grab bags, cats and nigger babies, ice cream, candy and soft drinks; while the older folks found bingo, the comic games and the refreshments most interesting. On Sunday the downpour of rain kept many of the patrons at home, and for this reason the fair will be carried over until Sunday, July 30.

The brothers of the Sacred Heart rendered great assistance at the various booths. The ring game was handled by Mr. Roger Heitzmann, Mr. Vincent Moreau and Mr. Standaard.

The grab bag for children had a novel attraction this year, and was very popular. Miss Mary Guagliardi, Miss Josephine Guagliardi, Mr. John Duro and Mr. Charles Bouis were in charge of this booth.

Mrs. Frank Martin, Miss Fush and the Misses Viscosa worked at the candy table; and we might add that this was a very attractive booth.

Mr. Fred Fayard with his Boy Scouts handled the nigger babies, cats and penny games.

Mrs. E. F. Fahey, Miss Bobbie Arceneaux and Miss Rita Bopp furnished the refreshments at the sandwich table.

Mrs. G. Y. Blaize, Mr. and Mrs. Thomas Smith, Mrs. Geo. Guilbault, Mrs. Gus Soniat, and Miss Loretta Smith, representing St. Margaret's Daughters, were in charge of the cake table.

Mrs. Marie Monti and Mrs. Sam Piazza handled the ice cream table. Mr. and Mrs. Geo. Stevenson, Miss R. Nunez and Mrs. A. Simon were in charge of the novelty table. The beautiful decorations were arranged by Mr. Alvin Weinberg, Mr. Fred Fayard and Mr. Carl Arnold. While Mr. Tony Benvenuti was in charge of the electrical work.

Come out to the Fair Sunday, July 30, and spend a pleasant afternoon and evening. The Fair will open Sunday at 5 P. M. and will continue until late in the evening. The place—Lawn of St. Stanislaus College. Time—Sunday, July 30—Admission, Free.

## HANCOCK CO. LIBRARY HAS 2476 READERS IN CITY OF BAY ST. LOUIS

**Local Residents are Generous in Contributions of Volumes  
And Magazines—Miss Crawford Busy in Rural Com-  
munities in View of Changes to Be Made.**

Through the kindness of Mrs. L. T. Boyd the library has a complete set of the book of knowledge. The value of this gift cannot be over estimated and the management is very grateful to Mrs. Boyd for this set.

Mrs. Walter J. Gex, Sr., and Mrs. Milton A. Phillips contributed a number of good books which have added to the library. In the collection there is fiction, non-fiction and a number of children's books which could not have been purchased. This library has been fortunate in having so many friends.

We also thank Mrs. Briggs for the gift of such late magazines, especially copies of the Readers Digest. Mrs. Briggs always is ever mindful of the library.

The library has enrolled to date 2476 readers in Bay St. Louis (this does not include the readers in the rural sections) and has 5924 books in the main and branch libraries.

In the present state of charge of forces in W. P. A. circles Miss Crawford is busy almost every day in the field at the branch libraries but the main library is open and all readers will be given every attention.

## MANAGERS OF SCHOOL ROOM, GARDEN AND CANNING PROJECT

**Held Last Friday at Federal  
Project Headquarters—  
Miss Caro Weston  
Presides.**

The regular monthly meeting of the supervisor and managers of the school lunch, garden and canning project was held at the project office on Friday, July 21, starting at 9:30 A. M.

Miss Caro Weston, county supervisor, was in charge.

After the registration of managers and workers, the county supervisor discussed the procedure of the work, explaining some of the many reports and making various suggestions that are to be carried out in the canning centers until the next regular meeting.

A demonstration in canning pears was held by the county supervisor, Miss Louise Peters, home demonstration agent, assisting.

At 12:30 a picnic lunch was enjoyed. The meeting was then called to order at 1:20 P. M.

During the afternoon round table discussions were held and opinions exchanged between the managers of the many canning centers, concerning their experiments and methods of canning. The workers received good ideas from these discussions.

Smacks were given to all and the meeting adjourned. The workers expressed their pleasure in the meeting and all are looking forward to the next one.

## FEDERAL OFFICERS ENDORSE

**Work in Bay St. Louis Ac-  
complished Under Aus-  
pices of WPA.**

The United States Public Health Service detailed two representatives from the Memphis office to inspect the malaria work in Mississippi this week.

The two engineers, J. L. Robinson and W. V. Parker, were in Bay St. Louis and Waveland Wednesday, accompanied by Dr. C. M. Shipp, Hancock county health officer.

They were pleased with the permanent character of the drainage here and thanked the city officials for the splendid cooperation in these mosquito control projects. Their endorsement of this work and commendation of Bay St. Louis board of mayor and city commissioners by authoritative source gives a source of general satisfaction—to know the work has been done in thorough manner and bears official inspection 100 per cent.

## POLICE CATCH TRIO IN STORE

**With Intent of Robbery and  
Are Apprehended and  
Landed in County Jail**

Talutto grocery store was entered at 2:15 o'clock Tuesday morning of this week by three young Bay St. Louis men who are charged with breaking in at night time with intent to rob. They are Roland Johnson, Theo. Bourgeois, Julian Pechou. Their capture was effected and trio was landed in the county jail. It is stated, they will remain subject to the action of the next grand jury.

Chief of Police W. T. Hobbs and Ainslie Saucier, of the city police force, had their suspicions aroused, it is said, and trailed the young men, keeping their eye, as well as on others about town for sometime.

The men, it appears from police reports, had tried to enter through the front of the store building, but failing in this effort, they forced their entrance thru a back transom. They were caught in the building by Chief Hobbs and his assistant, Officer Saucier. The men were trapped and guarded. Officers communicated with colored parties passing by, in the vicinity who were told to notify the county officers. In time Deputy Sheriff F. J. Bopp, as well as Sheriff Monti, and Constable Gerald Price, were on the scene and with the building guarded back and

front they got their men.

It appears the trio, realizing their capture was inevitable, entered the attic of the building through a ventilator trap and remained there until at the point of pistol the men were captured and their incarceration in the county stronghold followed.

The arrest is considered important and the city police force, headed by Chief Hobbs, assisted by the county police officers, are justly proud of their "catch." It appears, according to police the young men have been under suspicion for some time and were watched carefully, their every action interpreted and their movements closely guarded. With such police application results fol-

## T. E. KELLAR TELLS OF REDUCTION

**In County Taxes by Board  
Of Supervisors of Which  
He is a Member From  
Local Beat.**

Calling to the public mind that there is an old Democratic custom established in Jefferson's time, that when an officer has faithfully and conscientiously performed his duties and has been honest and faithful to the trust placed with him, he is at least entitled to a second term, T. E. Kellar, candidate for reelection to the board of supervisors from the local Beat 5, has issued a statement. He says the custom is seldom broken and that he has been faithful to the trust reposed in him, and expects to be returned to office in order he may continue in the fine and constructive work which the board of supervisors has so auspiciously inaugurated and especially since there has been such drastic reduction in taxes.

"I am endeavoring to see each and every voter in this beat and discuss with them our various projects and problems," says Mr. Kellar in his statement, and continues:

"But since I am very busy looking after the roads that are being constructed in this beat, namely, the surveying and surfacing of the Lakeshore road running from the Beach Blvd., at Lakeshore to Highway 90, the shelling of the main street in Clermont Harbor, the surfacing of Waveland blvd. and Nicholson avenue and other roads of like importance preparatory to the hard surfacing which will be started in the next few days this work is keeping me busy and I may not be able to see you as I planned.

"I am sure that you would rather have me look after these projects than to sit on your porch and discuss with you the exact issues that I hope to reduce to writing. And if you are satisfied that I am doing a good job then I ask for your endorsement at the ballot box on August 8 the date of the first primary election.

"For your information we have in this county and beat one of the largest road programs that the county or beat has ever had, and the Board of Supervisors as a whole, together with the advice of the attorney for the board and the assistance of the clerk of the board, we have worked out, secured and are sponsoring the W. P. A. program not only for the road and bridges of our county but we have the malaria control, and the beautification program, and other projects that I have not room to mention here. At the same time the rate on your property tax has been reduced from 69 1/2 mills in 1936 to 41 mills in 1939 on all outside property, and inside the city limits of Bay St. Louis, and Waveland the county's rate of taxes has been reduced from 59 mills in 1936 to 31 mills in 1939 and in addition to this the Homestead Exemption has almost placed us free of tax on all homesteads, and yet our county is in better financial condition today than it has been for many years. And these reductions in taxation in my humble judgement has come to stay, and any improvements that the Board of Supervisors may see fit to make under normal conditions can be met without a raise in local taxation."

On Monday evening at dusk on the Old Spanish Trail, at the intersection of the Piquayune Highway and U. S. 90, two automobiles containing six persons collided, injuring all six, one who subsequently died from the injuries he sustained.

## Two Cars Collide.

Mr. and Mrs. J. T. Blackwell, of Bogalusa, La., who had been registered at The Answer and had started on their return to their home in Bogalusa were in one automobile travelling south, while Mr. and Mrs. David Dudley Kriger, of 3322 West Beach, Gulfport, Miss., who had been visiting in Galveston, Texas, their former home, and were returning to the coast accompanied by Messrs. W. S. Sandifer and Joe DeMarri, residing at the Avelez Hotel, in Biloxi, were the occupants of the other car. Mrs. Kriger was driving at the time of the accident and stated she eventually fell asleep as was Mr. Kriger who was seated beside her.

## David Dudley Kriger Dies.

Mr. Kriger's injuries consisted of a fracture of the base of the skull. He never regained consciousness, and died at the local King's Daughters' hospital Tuesday afternoon at 5:45 o'clock.

The body was turned over to the Fahey Funeral Home firm and prepared for burial and shipped to Galveston, Texas, where the deceased resided up to two years ago, for burial.

He was a son of Harry J. Kriger and Cecil Bryson, husband of Doris Phillips, aged 25 years, native of Galveston. He had been a resident of Biloxi for the past two years and was on his way back home after a visit back to his former home in Texas.

## How Others Were Injured.

Mrs. Kriger suffered shock and a sprained back and cut on the mouth. W. S. Sandifer suffered cuts on right leg and right arm and an injured leg and foot. Joe DeMarri suffered a cut on the foot and bruises and black burns about body.

Mrs. T. J. Blackwell suffered from shock, while Mr. Blackwell recovered a cut on the face and has several fractured ribs.

A motorist coming immediately behind the Kriger car stopped and assisted in rendering first aid and conveying the injured persons to the hospital, where every facility and everyone in the place was called upon to assist in taking care of the injured, and several extra nurses were placed on duty at once.

Doctors C. L. Horton and M. J. Wolfe were in direct charge and in a short while had the situation well in hand.

## Mrs. G. E. Templett Sustains Painful Injury By Fall at Her Home.

Mrs. Gus E. Templett last week suffered a painful and serious accident when she fell in her home, Union street, and sustained a broken shoulder bone, occurring at an early hour before daylight. Mrs. Templett was treated by Dr. C. L. Horton at the local King's Daughters' Hospital and later removed to Hotel Dieu in New Orleans where it is expected it will be necessary for her to remain for six weeks. Many friends of this estimable lady will learn with regret of her singular accident, however, glad to learn she is doing well toward the goal of recovery.

## EXPONENT OF MODERN ADVANCEMENT.

OLD in years but young in thought and action, the New Orleans Times-Picayune, our morning newspaper of generations, has added to its long string of enterprises the newest endeavor in picture by presenting to its readers the Associated Press new service, the wirephoto.

By this means a picture is transferred to the telegraph and conveyed directly to the newspaper office, without loss of time or ordeal. A news occurrence happening tonight will carry the picture in the newspaper the next morning, regardless of distance. The pictures are clear, and, in fact, perfect, and add to the interest of the news story. It is a marvelous accomplishment and one of the wonders of the times. This service had been inaugurated in New Orleans by the States as well, the T.-P.'s afternoon publication.

The New Orleans Times-Picayune, then known as the Times-Democrat, was the first publication in that city to introduce and install the linotype and since then has employed its use. Every outstanding improvement the genius of man has given the printing and newspaper industry the Times-Picayune has been one of the first publications in the South to adopt its use regardless of expense. It has ever been with our esteemed morning newspaper to be one of the newspapers with the first, truly an exponent of modern trend.

If you keep your mouth shut long enough somebody will suspect that you have more than the usual amount of sense.

## THE NEUTRALITY TANGLE.

THE inability of Congress to pass upon proposed changes in the Neutrality laws of this country illustrates the power that a minority group exercises in the Senate.

Without regard to the merits of the changes advocated by the President and Secretary of State Hull it is unfortunate that the elected representatives of the people of the United States cannot pass upon them and make known the position of the United States.

At this time the world witnesses an American President stressing the intention of this government to throw its power, short of war, on the side of democracies, in their contest with the dictator states, and his inability to get the matter passed upon by the Senate.

We realize that the "isolationist" group in the Senate can talk any proposal to death but, just the same, in the best interests of the nation the question should be settled as quickly as possible.

If war comes in Europe and the United States prohibits the shipment of arms and munitions to Great Britain and France, as it is compelled to do under the existing law, the lure of high profits will encourage violation of the law and, if the conflict lasts long, lead to the development of munitions industry in Canada, financed by American money.

The present neutrality law does not stop the sale of oil and scrap iron to Japan; Japan says there is no war in the Far East. Maybe, there never will be a war in Europe!

## VOTERS MUST PRESENT POLL TAX

VOTERS are reminded to look up their 1937-38 poll tax receipts or Exemption Certificates and know where to put their hands on them when they go to the polls to vote in the Democratic Primary election on August 8.

Failure to present both your 1937 and 1938 poll tax receipts will prohibit you from voting. One of the first things a voter must do when offering to vote is present his tax receipt for two consecutive years before he can register his name in the poll book and receive a ballot. Ignorance of this requisite to participate in a Democratic Primary election will excuse no one, and Managers of election who do not enforce the provisions of the Corrupt Practices Act governing primary elections take the chance of "throwing out" the box and letting themselves in for plenty of trouble. Voters, therefore, are urged to cooperate in every way possible. Bring your Poll Tax receipts or Exemption Certificate. If you have misplaced them apply to the Circuit Clerk, who will gladly issue duplicates, but do not wait till election day, it may be too late.

Trinkets on exhibition in the House of Jewels at the New York World's Fair are valued at \$5,000,000.

In the course of an editorial the New Orleans Item gives due credit to the administration of Former Mayor Walmsley, who according to the esteemed Item, was persecuted by the late Gov. Huey P. Long. The Item pays him fine and just tribute and it is just and meet that credit be given to whom credit is due. But the bigger credit is given to the Item who always has the courage of its convictions, regardless of favor or adverse consequence.

It is our guess that candidates for Governor who criticize or speak lightly of the White administration are going to receive a rather severe rebuke at the polls next month. The voters of Mississippi know that the White administration has been the most constructive in the history of the State, and most of them regret sincerely that Hugh is not constitutionally eligible for another term, correctly says the West Point (Miss.) Leader.

## TO SAFEGUARD AGAINST UNDUE PRACTICE.

BELIEVING the "public safety and health of the citizens of Bay St. Louis are put in jeopardy in patronizing any circus, street fair or show," the commission council of the City of Bay St. Louis has adopted an ordinance, published in last week's issue of The Sea Coast Echo, making prohibitive the operation of any such public amusement, fair or show of any kind in the city.

A fine of \$100.00 or jail sentence of 30 days, or both, will be imposed for persons violating such ordinance. This timely ordinance took effect immediately after its passage. And will be rigidly enforced, it is announced.

This is in line with the wisdom of safeguarding our people from the unfairness and frequent economic disaster that such traveling shows cause visiting a community. It is pointed out such shows take away considerable of the monies from the people who, as a rule, can least afford to; and that certain practices are not wholesome for the betterment of our people. That such traveling concerns, as experienced, conduct eating places and such sidelines of business that are in conflict with resident business firms who pay separate license for the conduct of their business and are entitled to protection. That the sale of certain merchandise and other articles that constitute prizes for games of chance under the guise of skill, are violative of legitimate business custom and that as a whole are far from being conducive to the better morals of the citizenry in general.

There seems no objection to such mild and innocent attractions as merry-go-round (flying horses) and the like, but where various devices and other schemes are practiced to extract money from the public in intriguing and concealing manner such will not be tolerated in future.

Our city commissioners cannot be commended too highly for adopting such measure. The only regret is that such was not adopted long before this. One of the great evils that can befall a community regarding its economic existence is to allow outside undue practice and vicious influence to obtain.

Thanks and appreciation to our commissioners.

## RELIEVING MAIN STREET CONGESTION.

IN order to relieve an unprecedented condition of congested traffic Bay St. Louis municipal board of executives has issued an order restoring parking of automobiles "only on one side" of Main street. This, however, is the law, according to an ordinance passed some few years back.

But to meet the demand of emergency the law, dormant, has been resuscitated and is being rigidly enforced. Main street is too narrow for the traffic it carries. That is, the street is not narrow within its own confines but the traffic it carries day and night makes it inadequate to carry the load.

The city council is to be commended for this action. It affords considerable relief and will be the means of not only expediting traffic but by removing the possible occasion of accident, save a life or more in addition to damage to property. The value of human life cannot be overestimated.

Of late years new buildings in Main street, including the new postoffice, have been set on a line far recessed within the bounds of the original thus making for a sidewalk possibly double former widths. This forethought was born with the condition in mind that has arisen. Sooner or later the city will be compelled to widen the street, taking a slice from sidewalk space. This, however will cost, and for the present emergency the council has legislated wisely and is enforcing the ordinance to the very letter.

Parking on one side of the street is the answer for the present.

## OF INTEREST TO MISSISSIPPI VOTERS.

THE citizens of Mississippi are beginning to manifest a lively interest in securing information in reference to the two amendments to the constitution which are to be voted on at the general election November 7th, being the so-called Mortmain Sections. Apparently few of the voters know that Mississippi is the only state in the union which absolutely prohibits a person in a will from leaving any money or property to a church, church orphanage, school or hospital. The proposed amendments do not repeal the present law but only modify it to the extent that a person may leave property to a church institution provided the will is written at least ninety days before death, and that not more than one-third of the estate is bequeathed to church institutions where the person making the will has dependents. The amendments also provide that any land devised to such institutions remains taxable and must be sold in ten years. One who votes in the election but does not vote on the amendments is counted as voting against them, and the State Mortmain Committee, of which Hon. H. V. Watkins, Sr., is chairman; Dr. D. M. Nelson, vice chairman; and Judge O. B. Taylor of Jackson, is director, are anxious that citizens everywhere will take the time to explain the proposed amendments to their friends. Literature may be secured by writing the committee at Jackson.

## STATE PROGRESS DAY PROJECTED FOR STATE FAIR.

FEATURED by a spectacular parade and other public events, Wednesday, October 11, has been designated as "Mississippi Progress Day" at the 1939 Mississippi Free State Fair in Jackson.

Every state institution and every department of state will be represented in the parade which will be the opening feature of a day given over to a review of Mississippi's progress in agriculture, commerce, industry and education.

Other features of the day, which have the personal and enthusiastic endorsement of Governor Hugh White, include a "Mississippi Progress Luncheon" at noon and a "Mississippi Progress Review" at 2:00 P. M.

## Dots and Dashes From The Pacific Coast.

San Francisco, Cal.  
Keystone Hotel,  
July 20, 1939.

We left Santa Ana, by auto, on a trip to the Golden Gate International Exposition. A good omen—Corrigan's wedding day, on July 17th at 6 a. m. To Los Angeles and then Santa Monica, by the coast route we journeyed north. On 101 highway to Santa Barbara, Santa Maria, San Luis Obispo. Cool and hot. The Grayhound bus passing frequently.

The Richfield Gas Stations landmarks, in the nesting hills, Malibu Beach, Oxnard, Ventura, a scenic mountain route cut thru the mountains. Wonderful auto courts, Pelicans, hills and the ocean. Golden Arrows, lead to the old Santa Barbara Mission. Stacks of hay in the horse country. Santa Maria Fair on July 26th. My birthday.

Streamlined trains rushing by. San Luis Obispo Mission founded in 1772. San Miguel Mission in 1797. Strong winds. About 150 miles from San Francisco. Fields of carrots, also loaded trucks. Spent the night at the Rainbow Cabins, opposite Hughes Cabins, near Lelinas. Fine cottages. Quite tired after a whole day's ride, but left next day at 8 a. m.—about 70 miles from San Francisco now. California is wonderfully lovely, spread out under a hot sun, with constant changes in the landscape.

Trucks of lettuce. Trains passing swiftly. Soon the strange apricot land with its many trees. Gathering and sunning. They say their time is nearly over—they ripen so fast. Lots of walnuts now too. Masses of trees. San Jose. San Francisco 49 miles away. San Jose is a large town. San Mateo: Pottery. Many auto courts. Southern San Francisco 11:35 a. m. Cypress Lawn Memorial Park. We stopped at the Keystone Hotel for a week.

The best way to Treasure Island is by ferry. You see the Tower of the Sun, as the ferry leaves San Francisco, high above Treasure Island. Everything is wide and appears simple, indicating the greatness of a world's affair? That's a joke. Anyway, you breathe the Pacific and are awed by open spaces. Sightseeing cars are waiting in court of Pacifica. The Tower Bells ring for fifteen minutes every hour. The cars take you entirely around the island. Other cars take you where you wish to go, for a dime.

Some objects of interest are: Tower of the Sun and Court of Honor; Court of the Moon; Court of Pacifica; Pavilion of the Pacific Basin Area; Foreign Pavilions.

Flower effects: Yellow Daisies in Pacifica. Cavalcade of Pioneers an open air theater at the Tower of the Sun, only yellow is used. Orange trees and yellow Maragolds. The lower fountains are burnt orange—a golden eagle is on top. Tall candles too. Deep blue water of the fountains; the golden carvings on the beautiful buildings; the details are all perfect. Boats with figures of Angels in front give the effect of horses, on two long halls. Pictures on the walls Golden fire on buildings in the Court of Honor.

Federal building has the trellis of a bridge, with the names of the different States on the uprights. The Western States, Australia, Japan, Canada, and others are all fine creations.

The Philippines, with Pavilion, combined with others over a lagoon. Wonderful fountains; one with grotesque figures, the changing lights at night are of all colors, pink, blue, green, red, purple but usually of soft tints—lights come on about 7 p. m.

### "STORY OF ALEXANDER GRAHAM BELL AT A. & G. SUNDAY-MONDAY.

**Don Ameche-Loretta Young And Henry Fonda Cast In Stirring Romance**

Out of the stirring past of this great nation emerges a drama of accomplishment that symbolizes the tradition of America—the story of Alexander Graham Bell, inventor of the telephone. His is the dramatic romance of one who dreamed and struggled, loved and achieved. Simple, human and inspiring, the magnificent motion picture coming Sunday to the A. & G. Theater pays homage to his genius and to a woman's devotion. Darryl F. Zanuck's production of "The Story of Alexander Graham Bell," a Cosmopolitan production for 20th Century-Fox, with Don Ameche (in the title role), Loretta Young and Henry Fonda sharing stellar honors, tells with power, with humor and with profound humanity the drama of a great man and the love that inspired him.

Bell's is a story that belongs to America—the obscure young scientist, his discouraging struggles, his invention of the telephone, his desperate battle against public ridicule and powerful opponents, his ultimate triumph, the flame of his genius kept alight by the love and faith of the woman he adored.

So intense was the struggle against poverty, disappointment and powerful opponents—a struggle which prevented his marriage to the girl he loved, that Bell halted on the threshold of his invention ready to sacrifice it so he could find happiness with Mabel Hubbard. To her, in his darkest hour, he wrote, "Ever since I held you in my arms, I've known I was little enough to do it means that I may call you sweetheart and wife! The telephone will be born some day—and I do not care one bit who gets the glory so long as the world gets the benefit."

"When next you talk vast distances to those dear to you," says Associate Producer Kenneth Macgowan, "remember it was a great romance that wrought the miracle!" Included in the cast are Charles Coburn, Gene Lockhart, Spring Byington and the three sisters of Loretta Young and Georgiana Young. Irving Cummings directed the screen play by Lamar Trotti, based on an original story by Ray Harris.

The film was previewed at the San Francisco World's Fair, the first time such an honor has been accorded a motion picture.

### ADJOURNMENT.

The decision of the President to yield in his fight for further neutrality legislation at this session has cleared the way for adjournment in a reasonable length of time. Most predictions are that we will wind up by August 5.

Still to be disposed of are the pending bill, possible amendments of the Wage and Hour Act, the Wheeler-Lea transportation bill, and the amendments to the Social Security Act now in conference.

### SPECIAL SESSION?

While postponement of further consideration of the neutrality bill cleared the way for adjournment, it also gave rise to a question as to whether a special session might be called. But nothing short of war in Europe would make necessary such a call.

### FEDERAL EMPLOYEES BARRED FROM POLITICAL ACTIVITY.

The law has long prohibited Civil Service employees from engaging in political activities, and the relief act this year outlawed politics in the WPA. A further and more drastic step was taken by the passage of the Hatch Bill. This bill applies to all Federal employees except political-making officials and will bar them even from attending party conventions as delegates or alternates. It forbids coercion in elections, bans solicitation or receipt of political contributions from any person on the relief rolls, forbids the promise of jobs for political activity, and prohibits Federal employment from taking active part in "political management or in political campaigns." It also bans public jobs to persons "advocating the overthrow of constitutional government."

One of the most distressing problems confronting us is that of unemployment among the youth of the country. It holds more potential danger to the "American way" than any condition that has arisen from the depression, for in the dictatorship the totalitarian principles have found their largest and most zealous support in the disapproval, disillusioned youth of the country.

Figures recently released by the National Youth Administration show that of the 20,000,000 boys and girls between 16 and 24 years of age 5,000,000 are out of school, unemployed, and looking for jobs that never seem to materialize. In the next age group of 24 to 34, which has grown into maturity since the depression began, there is probably a larger percentage of unemployed.

In a speech before the Institute of Public Affairs, Aubrey Williams, National Youth Administrator, said, "When Horace Greeley told the young men to go West, he had a perfect formula for saving Horace Greeley from having to think about unemployment. The young man and his problem simply disappeared (to the West) in a cloud of dust."

But the West as an untouched land of opportunity for the ambitious youngster no longer exists. The government is doing what it can to give a helping hand to youth, having aided 613,475 young men and women through the NYA and 270,000 boys through the CCC last year, but even such vast programs reached only one needy boy and girl out of six within the 16-26 age group.

### CHADDY'S CHATS FROM HOLLYWOOD

#### COMMENCING one's career in pictures as a child star has its drawbacks from which it takes years to emerge. For instance although Deanna Durbin has been in pictures for about four years, with some very charming gentlemen playing opposite her, she is still too young to enjoy the romantic close-ups for which every little girl yearns. If the title of her next picture, "First Love," is any indication that moment is close. Another who has been similarly afflicted is Virginia Grey, who started her film career as a youngster of 9, and who now, eleven years later, is cast in the lead role of a big picture, "Thunder Afloat." Virginia reached avidly for the script of her first big love scene with Chester Morris. Her heart sank when she read it of a pea jacket and the seat of her slacks and toss her off the wharf into the water. Such is life! A porter on the old pioneer train bearing Cecil B. De Mille and a party of film celebrities around the country for premiere showings of Paramount's "Union Pacific" asked the producer-director for a movie job. "Why, I don't think I've got a part you'd be suited for," said Mr. DeMille tactfully. "Ah, knows a part ab'd be ideal for," supplied midnight. "Ah could do the lead in that story: 'Ruggles de Red Cap.'"

John Howard and Dorothy Lamour, doing a tender love scene for "Disputed Passage," were continually upset by the howling of a voice from the projection room upstairs. After three takes had been spoiled by the intrusion of the canned voice from above, Director Frank Borzage sent his brother and assistant, Lew, to investigate. "Find out who's doing that howling," he ordered. "I don't think I've got a part you'd be suited for," said Mr. DeMille tactfully. "Ah, knows a part ab'd be ideal for," supplied midnight. "Ah could do the lead in that story: 'Ruggles de Red Cap.'"

Chief Thunder Cloud, the full-fledged Cherokee who leads a band of braves in a savage attack upon a pioneer railroad train in "Union Pacific" and who goes on to portray Geronimo in a picture of that title, had to decline an offer from Cecil B. DeMille to witness a private showing of the railroad epic. He was scheduled to make a personal appearance at a Burbank theater with the local chief of police—and make a speech on traffic safety!

**Smart Fashions Advocated by the Stars:**

The newest dinner gown in the personal wardrobe of Claudette Colbert, Paramount star, is an original Bernard Newman model of clinging white jersey covered with huge purple lilac design, the dress features a wide, circular skirt, swathed waistline; long tight sleeves and a draped square décolletage. Over the dramatic gown, Miss Colbert wears a circular, unlined, full-length cape of lilac velvet. A single slip of diamonds and amethysts serves as jewelry accent. With a striking floor length dinner dress of black and white lily-of-the-valley print, Miss Madeline Carroll wears a daring hat of black, shining milan straw. The brim tilts straight up at one side and dips toward the shoulder at the other. A froth of black veiling covers the face and ties in a soft bow at the side-back. The star's wrap is a gleaming black fox cape.

### ECHO PARTY RETURNS FROM WORLD'S FAIR.

Publisher of The Echo and party, who left New York and the World's Fair during the first part of July, returned home the latter part of the week, after a journey of 3000 miles without the slightest untoward incident. New York, as usual, was found exceedingly interesting and the Fair is all and more than is claimed by the most enthusiastic boosters, with its theme of the World of Tomorrow. Nothing like it has ever been presented. Its educational value is unparalleled.

In Washington the party spent several days on return trip and hopped with the great and near-great, this visit well on a par with that of New York. Visiting both the Senate and House in session was well worthy, with Vice President Garner presiding in the Senate and Speaker Bankhead in the House. Seeing Pat Harrison, lunching with Congressman Colmer in the congressional restaurant were highlights and an interview with Senator Bilbo was interesting. We are indebted to Miss Nannie-May Crump, of The Echo Staff, now in Washington, for her time and attention, serving as a most valued guide thru America's most beautiful city and the places to visit. Miss Crump is a newspaper woman par excellence.
